Alert #13 New Email Alert Reflector

Due to the large number of email addresses in the Tax Revolt Committee's Data Base, we have switched to an automated email server that will improve the handling of email alert messages being broadcast about our activities.

Up until now, I or Wayne Fischer emailed these alerts from our personal computers. We were never sure all of you received the alert message. Also, adding email addresses were time consuming, plus elimination of bad emails were problematic.

Automatic Addition and Deletions

Anyone can add their email address or delete an email address without going through me. Just go to the www.NevadaPropertyTaxRevolt.org web site and click on **Email Alerts** link. The page will give you instructions on what to do.

No Spam and Few Email Messages

Please note that only the Tax Revolt Chairman (myself) or an alternate (such as Wayne Fischer) are allowed to send an email message across this reflector. This will minimize the number of email alert messages that you will receive.

No Ads

No ads will be included in the email alert messages. This is because we are using a privately paid for email reflector service.

Confidentiality

The email list will be kept strictly confidential and will only used for this purpose. We will not sell or redistribute the email list to any other entity. Only message relating to Incline Village and Crystal Bay property taxes and IVGID operations will be emailed across this email list.

List is from 4 Sources

The alert email list is from 4 sources:

1. Village League to Save Incline Assets, Inc.
2. Incline Village & Crystal Bay Real Estate Email List
3. Men's Republican Club
4. Women's Republican Club

All duplicate email addresses were eliminated, therefore you will only receive each email alert message once.

If you do not want to receive email alert messages about our activities, please go to the following page. On the bottom of the page, fill in your email address and then request for it to be deleted. You will need a pass word to delete the message. If you forgot or lost your pass word, the server will email you your pass word and then you can delete your email address.
